MultiSync 46-inch Black LCD Monitor LCD4610-BK

NEC's MultiSync LCD4610-BK 46-inch LCD Monitor provides you with a diverse range of options to help you see your digital world clearly. CableComp technology equalizes the video signal to eliminate color halos on long cable runs. Its Screen saver function reduces the risk of image persistence for extended display life. Image flip allows you to properly display content originally prepared for alternative display technologies such as rear projection. The monitor features 6-axis color control engine that allows for precise and simplified color, color temperature and saturation adjustment. In addition, the Power save function puts the display in power management mode when a sync or input signal is lost. It offers DDC/CI connector that enables communication between the PC and monitor for display management, diagnostics and the remote control. Featuring user-friendly and efficient design, the MultiSync LCD4610-BK Monitor is ideal for users who desire to optimize their visual experience.

eBay: GLOSSY Chi Mei N154I1-L07 15.4" LCD WXGA wide screen (item 3001130248... Page 2 of 4

For bids is one **Chi Mei N154I1-L07 Rev C1 glossy 15.4-inch LCD** screen panel in very good condition as described below. It will work in a wide range of laptops that take a 15.4" WXGA 1280x800 resolution screen such as eMachines, Gateway, HP, Compaq and Toshiba, but please verify it is what you need before bidding.

Condition:

- The backlight works great - images and text appear clear and bright
- There is one stuck red pixel (dot), most noticeable on a black background, located 2.5" from the bottom, 5" from the right
- There are two very tiny dead (always black) pixels, most noticeable on white/bright backgrounds, located .75" from the top, 5.5" from the right, and .25" from the top and 2" from the right
- There are about 5 very, very tiny stuck blue and green pixels in various places on the screen, visible on a black background - I had to examine the screen carefully to spot them. Probably they aren't even worth mentioning
- No scratches, nicks or stuck/dead pixels other than listed above were found

We could not get the small defects to show in photos - it would be useless to show what appears to be a perfect screen here, but note the defects are there when sitting in front of the screen, so do not expect a perfect screen although it is in great overall condition and most sellers don't mention such slight imperfections. The screen would make a great cost-effective replacement of a broken screen. Upon research, we've found brand new ones for \$375, factory refurbished for \$250, new "pulls" from new or used laptops for \$170, and in used condition for \$150 and up. We have priced this one very fairly, considering the small defects - please do not submit offers for less.

The LCD will be packed carefully and shipped to you by USPS priority mail (2-3 day delivery), and we will send you the tracking/confirmation number after mailing the screen. **Shipping insurance is optional but highly suggested - it's inexpensive, and we can't be held responsible if the screen is lost or damaged in transport, so it will be your loss without insurance.**

Please, serious bidders only. Scammers and pranksters will be reported to eBay and/or PayPal. If you have no positive eBay feedback, one or more negative feedbacks within the last 12 months, or no feedback within the last 12 months, please contact me before bidding saying you intend to bid, else we can cancel your bid unless you choose to "buy-it-now". Listings in eBay costs time and money. If the winner fails to pay, it will result in a report to eBay with a non-payment strike against the user and negative feedback. We will not ship to unconfirmed PayPal addresses if your eBay or PayPal account appears to be fraudulent, and will immediately report the transaction to PayPal. See the shipping terms for more information.

If you have any questions, don't hesitate to ask! Bid with confidence - see our eBay [About Me page](#)

I bought this from new egg a year or so ago for my wifes computer which we no longer have. It's ju

sitting in a box in the closet so I figured I'd through it on eBay. Works great, no scratches, includes cables and cords (including DVI). Acutally has very low response times so it's great for gaming. I played a little BF2 on it and it looked great.

Shipping is via USPS Priority Mail and will be \$19.99.

Frequently Asked Questions:**What is a new pull item?**

A new pull item is an item that was removed from a unsold n; minor cosmetic scratches from removal or from bulk handling sealed box and it has only been used when testing for quality item may vary depending on the manufactured date of the sy

Can I combine multiple orders?

Why won't you ship to an unconfirmed Paypal address?

According to Paypal's Seller Protection Policy, we are constrained to ship to a confirmed address only. Otherwise, Paypal will not guarantee the shipment.

Can I track my USPS shipments?

Yes, you can do so at www.usps.com. Please note that USPS only provides tracking information. It will only inform you when the package has been delivered.

When there is no information available, it does not mean the package is lost. It just means that it has not been scanned in as having been mailed. Priority is 99% on time, it is NOT a guaranteed 2-3 days delivery (10) working days for the package to be delivered.

When will I get my item?

We are located in Escondido, CA. Orders to the west coast typically take 3-6 business days, to the midwest typically take 3-6 business days, and to the east typically take 5-10 business days. Please keep in mind this is under normal circumstances. We do not take into consideration holidays and/or bad weather. We do not charge an additional fee, please contact us for details.

The tracking information shows the package has been delivered. What's up?

You may want to contact your local carrier to determine if the package was delivered where they may have left it. Frequently, if the carrier didn't find the package at your address, they will leave it in a reasonably secure location at your address, they will leave it with neighbors or your Apartment Manager for safe keeping.

Do you offer a warranty/RMA on your products?

Yes, absolutely! Please visit our [customer service](#) section for more information.

Can you ship COD?

Sorry our warehouse is not currently setup to ship COD orders.

Can I pick the item up?

We accept walk-in orders by appointment only. Please contact us for more information.

Does shipping include insurance?

All of our items are shipped insured, unless otherwise stated.

Can I ship to an alternate shipping address?

Sorry, Paypal does not guarantee funds unless they are shipped to the confirmed address.

Terms and Conditions of Auction Sale:

Please completely read and accept these terms before bidding!

Winning bidders should contact Seattle Laptop Inc. within 72 hours from the end of this auction. We p

seattlelaptopinc@yahoo.com. In most cases we will contact winning bidders by email, but we cannot contact winning bidders, so you should take care of payment even if you do not hear from us. All our auctions add this charge to the final bid price and proceed with payment using PayPal or Money Order!

All payments must be received within 7 days from the end of the auction, or you must at least contact us if you are using a Money Order. This is very important. Make sure you contact us the day you mail your Money Order. If payment is not being taken care of, since the mail system could delay our receipt of payment until after 7 days, or we have not been contacted with other information, we will inform eBay and re-list the item.

Most items listed are already packed for shipping by the end of the auction and will be shipped promptly. Once your item has shipped we email you immediately with shipping information. We do not ship to post office boxes. We do not ship to locations outside of the United States (although we can ship to a friend in the US if you are).

Seattle Laptop ships from 4 separate locations and often prepackages items for shipping before auction. We ship on multiple items or allow for pick up in the store.

All warranties, if any apply, will be listed and explained in the item description. If an item is listed "as is" it means just that! There is always a chance the item may have some quirks or problems so we have large quantities of surplus laptops, parts, and merchandise that we are auctioning off on eBay. Most items are surplus and work fine, but some don't. We do not have the time or facilities to fully test this volume of items. We would be comfortable with giving them full warranties. So we test what we can and are auctioning off as much information as we can supply. If you have any further questions feel free to email us.

We are reasonable people, so if you truly have a problem we are sure it can be worked out. Please contact us for feedback if you have any problem. Our rating is important to us so we strive to be fair. We will not, for any reason, list any item as "as is - no warranty" or "untested" or "for parts only." We do (as all should) describe items as described.

Seattle Laptop also reserves the right to cancel or not honor bids left by eBay users with excessive negative feedback.

Winning Bidders Pay Below:

If you are the winning bidder please follow the PayPal link below. We will try to notify you by email if you are the winning bidder. Most items are packaged and ready to ship as soon as payment is received.

Thank You

Get your hands on new stuff

Sometimes you just have to try out electronics for yourself. Visit one of our more than 600 stores and our store associates will help you figure out exactly what you need.

Don't waste a trip

When you order from us online or by phone, you can instantly see what's available in stores near you. Choose in-store pickup and your purchases will be ready to pick up 24 minutes after confirming your online order, or we'll give you a \$24 gift card.

How does it work?

As soon as your order is confirmed, a pager goes off to alert our store associates. They'll select your items from our inventory and have them waiting for you at the pickup counter. Associates can also recommend anything else you may need to go with your new purchase.

Alfred discovered he loves computers the first time he worked on one in fifth grade. He's a firedog technician, diagnosing and repairing customers' computers.
